In brief

There are several best quality and affordable VPN services available in the market for users worldwide. There is no need to pay a huge upfront cost to get a perfect VPN; some of the genuine VPNs are pretty cheap.

There are several best quality and affordable VPN services available in the market for users worldwide. There is no need to pay a huge upfront cost to get a perfect VPN; some of the genuine VPNs are pretty cheap. With so many options available in the market, it becomes difficult to choose a reliable and perfect one. Are you looking for the best 3 cheap VPN services now? If yes is your answer, then here you would come to know about the best and cheap VPN services right now!

1. Surfshark VPN

Surfshark VPN is one of the reliable and cheapest VPN services available in the market. You can connect multiple devices at once, and servers are available all around the globe. It is even possible to keep your account safe and access everything you want to. It offers great services and features with more than 1000 servers spread across 60 different locations.

It also gives you a 30-days money-back guarantee so that you can take your money back if you are not satisfied with its services. It is available at just \$1.99/mo, which is affordable compared to other expensive VPN service providers. It has completely zero restrictions, and you would be able to connect many devices you want without any issues at all.

2. PureVPN

PureVPN is the next one on our list. PureVPN offers a great stable connection in which you can choose from over 6500 servers. Some of the features with PureVPN are Split Tunneling, Port Forwarding, and Kill Switch. One great highlight of PureVPN is its multi-connection option. With a single PureVPN account, you can connect up to 10 devices simultaneously.

PureVPN comes with 3 subscription plans, and the monthly plan will cost \$10.95, whereas the yearly plan will be billed at \$69.95 for a year. The third option is the two-year plan, where you need to pay only \$79.92 for the whole 2 years. PureVPN also offers a trial period of 7 days for \$0.99 if you choose a 1-year plan.

3. IPVanish VPN

IPVanish is also one of the cheapest VPN services available for users. It has more than 1,300 servers spread across 50 different locations. It even offers up to 10 simultaneous connections on a single account. You should note that IPVanish is a US-based provider, which most of you may not like, but it does not keep any other information or keep logs of the users. The apps are available for all the major platforms, and it is simple to use, and you would not face any issues.

It is priced fairly by considering its benefits and feature set. There is also a 7- day money-back guarantee for the users. The user interface of the app is simple and easy to understand for the users. It offers fast speed and strong privacy features and encryption.

4. CyberGhost VPN

CyberGhost is recognized as a perfect cheap VPN available in the market. It gives you all the basic capabilities at a lower price if you are going for a 3-year subscription. By paying less, you would have access to 5,600 servers spread across 80 countries. It will never monitor and keep records of your online activities, which means it is a great VPN for privacy seekers.

There is also a 45 days money-back guarantee for the users. It helps users to remain anonymous even when it stops working suddenly. It will never leak your IP address and always compatible with the Tor browser, torrenting, Netflix, and many more.

5. PrivadoVPN

PrivadoVPN is a new name for most of them. It is a new entry into the market. PrivadoVPN is one of the best when it comes to pricing. They offer strict protection with a Zero Log policy. PrivadoVPN is based in Switzerland, which makes it more secure and privacy-oriented. The server location selection PrivadoVPN is not that great. However, you will get stable servers from around 47 countries.

PrivadoVPN comes with a free plan that offers 30GB data usage using the VPN connection when it comes to pricing. You can use the service on one device, and 12 server locations are available with the free plan. Premium plans have no data limit, and you can use all the locations on up to 10 devices. The monthly plan is priced at \$7.99, whereas the annual plan is \$59.88 (\$4.99 per month).

Conclusion

At last, you are aware of the best 3 cheap VPN services which you can use to remain anonymous while browsing your favorite sites. You can use any of the above-mentioned VPN services and enjoy region-restricted websites right now itself!
