In brief

The government of India now banned 59 Chinese apps due to security concerns. The most popular and downloaded apps like TikTok, Shareit, CamScanner all are among them.

The government of India now banned 59 Chinese apps due to security concerns. The most popular and downloaded apps like TikTok, Shareit, CamScanner all are among them. Even though the banned applications are the most widely accepted ones, there are so many alternative options available and you can download them on your Android or IOS device.

There are millions of users all around the world who prefer using only TikTok for uploading their music videos and demonstrating their talent online to their loyal fans. TikTok is one of the largest and successful video-sharing platforms in the world right now. It has several great features and advanced options that attract users from across the world.

But its dominance is now challenged by many countries like India where the app has been banned and not available for anyone. Despite this, users are looking for the best alternative to this reliable and genuine music video app. Are you also looking for an alternative to Tik Tok right now? If yes is your only answer, then let's go through some of the best alternatives for TikTok.

So, let's see the best TikTok alternatives.

Triller

Triller is one of the best and genuine video-sharing platforms available in the market for users worldwide. It is a great alternative for TikTok users and allows you to record your videos and the auto-editing algorithm does the rest of the work easily without any issues at all. You would be glad by knowing that many celebrities like Kevin Hart and Selena Gomez prefer using this app to edit their social media videos regularly. The app is simple to use and easy to understand for the users.

It is easy to navigate menus which would make the whole process cumbersome. You would be able to express yourself easily without any hassle through more than 50 different filters, video trimming, drawing, and video cutting. The app has several best collab video features so that you can easily make perfect videos with your friends. It would be better for you to understand that it is not a networking app as it only allows users to edit their videos. It is also possible to share your videos with the file-sharing feature to other social media accounts like Twitter, Instagram, and Facebook.

Mitron

Mitron is also one of the best alternatives for TikTok users and you can download it from the Google Play Store right now. It has more than 2 million downloads on the Google Play Store and even successfully created its own unique identity in the niche. It is a free short video and social platform which is mainly designed for people to showcase their talents and dancing skills.

You should note that this great app has a majority of the Indian user base. The app is a step ahead of TikTok in terms of stickers, filters, and several perfect effects. With the help of this app, you would be able to select different types of filters, effects, and including split-screen, colorful hair, emoji, telekinesis effects, and various effects like superpowers too.

It offers an easy and seamless interface for the users to create, edit, and share their videos. If you want to go live on the app while connecting with your followers, then it is also possible to do it. You can even add fans to your live feed as you can easily do it on Instagram. It takes only a few seconds to open your account on this video-sharing platform. It is better than TikTok and you should go for it without any second thought.

Sharechat

Sharechat is a regional social media platform that has been founded by Bhanu Pratap Singh, Ankush Sachdeva, and Farid Ahsan in India. It offers several great features and advanced options to the users. It is currently available in 15 languages and you can share funny videos, choose interesting content, attract more music fans to follow you, and even make great friends.

It has banned more than 50,000 profiles to keep violent, pornographic, and fake content off its genuine platform. You can join the chatroom in your languages and also create your chatroom to talk with your friends. Users can share free WhatsApp Status Videos, Talk to Strangers, Funny Short Videos, Latest Trends, and Events in 15 Indian languages. This amazing app is available on the Google Play Store and you can get it right now.

Firework

Firework is a video maker app that is another TikTok alternative and offers a wide range of editing tools to cut, trim, merge and even duplicate video clips. Just like the video-making apps, you can make your music videos, lip sync videos, dance videos, and more. It is possible to go through your personalized video feed where you can through dancing craze to perfect talents shared by artists, musicians, singers, comedians, and more.

Several video challenges are held weekly, where you would be able to win amazing cash prizes. It is easy to take participate in the viral trends through your unique style. This app is completely different from other apps as it helps in promoting videos on a quality basis rather than on the number of followers. You can collaborate with your friends and participate in the bandwagon to offer unique music videos.

Funimate

Funimate is the best alternative for TikTok where you can create your videos and edit them with the help of several filter options available in the app. It is easy to create an account on the app without any issues at all. After creating an account, you are going to land on the feeds page where you can explore thousands of content from several creators on the platform for sure.

You can check out several options like a tutorial, featured, following, and funstarz. Users can trim their videos, split them, and add several effects like a dizzy, glitch, digital, and many more. It offers the same features to the users as TikTok and you would love to use it for sure.

Conclusion

Finally, you are aware of the best alternative for TikTok which you should download and install on your device. To make beautiful and unique videos, you should try the above-mentioned app and add text overlays and stickers to videos. The apps are free to use and you do not have to pay anything for using them.
