Instagram is the best social media platform used by the majority of users all around the world. The image and video sharing platform is mostly used to share personal and common videos and images with friends and families.

Instagram is the best social media platform used by the majority of users all around the world. The image and video sharing platform is mostly used to share personal and common videos and images with friends and families.

But some people are interested in downloading Instagram videos and images on their devices, especially the videos of their loved ones. Image downloading is easy, and we can do it without extra effort.

However, video downloading on Instagram is not so easy. There is no official support for Instagram video download, and hence we need to use any third-party Instagram downloader for video downloading.

There are so many applications and websites available as the Instagram video downloader, but most are not reliable and safe to use all the time. Here we explain how to download an Instagram video using Ingramer, one of the best Instagram video downloaders.

### Is it legal to Download Instagram Videos?

Instagram is not officially supporting any video download and hence you cannot download Instagram videos from the official Instagram app or website.

But there are third-party Instagram downloaders available to download videos. So there is no legal issue in downloading the videos or images on your device for any personal need. But using the same video or image for any commercial purpose or reposting the same or distribution is illegal.

### Is it Safe to use Instagram Downloader?

There are so many apps and websites that offer the option to download Instagram videos, but not all are safe. Ingramer is a marketing service that provides the option to download Instagram videos which is safe to use.

### Is it free to use Ingramer to Download Instagram Videos?

Ingramer is free to use, and you can download videos from the Instagram profiles, but if you need to download the videos altogether from a profile, you need to subscribe to their premium plan.

They are offering 3 monthly plans

- \$9/month for 10 profiles, in which you can download videos from 10 profiles
- \$49/month for 100 profiles, in which you can download videos from 10 profiles

- \$99/month for an unlimited number of profiles - Here, no limit on profiles. You can download videos from any Instagram profile.

## **How to Download Instagram Videos using Ingramer**

Step 1: From your Instagram, find any profile and open the video you wish to download.

Step 2: Click on the 3 dots on the right top corner of the post window.

Step 3: In the menu option, click on the 'Copy Link' option. Now the video URL gets copied to the clipboard.

Step 4: On the Ingramer Instagram Video download page, paste the URL in the box and hit the Download button.

Now the video will start downloading on your device. So you can use the video personally without any issue.
