In brief

Do you belong to that category of people who have butterflies in your stomach and sleepless nights before your big day? Or are you more like someone who has the guilty pleasure of forgetting important dates at events and making up for them anytime later?

Do you belong to that category of people who have butterflies in your stomach and sleepless nights before your big day? Or are you more like someone who has the guilty pleasure of forgetting important dates at events and making up for them anytime later?

Messing up and forgetting your Wedding date might cost you your patience and peace of mind. You will be running here and there at the last minute to get things right. So, why not play an intelligent move and hop on to the best wedding apps?

Let us clear the confusion first. These applications will not help you with your wedding rituals. Instead, these will help you come along with your closest friends and family to plan your wedding countdown. In a technology-driven world like today, when smartphone applications help in sorting all your essentials. So, why not hop on to an application for your wedding countdown, too?

A wedding countdown app will turntables for you and work well in your favor. And what is better than having easy access to these applications through your Android and iOS smartphones.

Here is a list of a few best Wedding countdown applications you can install on your Android and iOS. Following are the countdown app iPhone and Android devices are provided with.

1. The Big Day App

The Big Day App is the first wedding app on the list. Your wedding day is significant and memorable. So, this is a unique countdown application that keeps you informed not only about the upcoming days but also about the days which have gone by. Also, this application will help you schedule your dates like birthdays, anniversaries, work anniversaries, and others.

What will you love about this app?

What can be better than penning down your wedding story on your own with the help of a wedding countdown on Facebook?

This application's feature will help you.

The Big day App features a widget, and you can use it excitingly. If you cannot control your excitement for all your wedding preparations, the widget feature helps you get a sneak peek into the home screen. You can glance at the countdown from here and plan your things.

The application is home to a pool of features that use icons that help in notifying you of the events on the app's status bar. You can customize the icons and even add pictures. With the 3 widget feature option, you choose what interests you the most. For example, this application will help you use motion stickers to get similar and exciting feels once your wedding day is near. With the Big Day App, you will get a free countdown widget iPhone customization option too.

What might not work for you

Random popping up of advertisements can be a distraction and may not gain appreciation from the potential application users.
