Bottom line

The Mi Notebook 14 Horizon (priced at 59,999) features a 10th Gen Intel Core i5 or i7 processor with NVIDIA GeForce MX350 graphics, a 14-inch Full HD display, 512GB SSD storage, and weighs just 1.35 kg.

There are many high quality and fast performing laptops or Notebook available in the market for users all around the world. If you are looking for a new notebook, then you should consider several things into consideration before proceeding further. Xiaomi and Honor have launched their latest Notebook for the users.

Comparison between MI Notebook 14 Horizon and Honor Magicbook 14

Mi Notebook 14 Horizon and Honor Magicbook 14 laptops have been compared to their price and specifications here so you would be able to find a perfect option for you. MI Notebook 14 Horizon is priced at 59,999 and Honor Magicbook 14 is priced at 42,999. Xiaomi has entered the laptop market in India with its new Mi Notebook 14 Horizon. This model is light and compact, with a premium look and you can carry it anywhere without any hassle for sure.

MI Notebook 14 Horizon

Mi Notebook 14 Horizon Editions comes in two variants, based on the processor: The 10th Generation Intel Core i5 and The 10th Generation Intel Core i7 with 14-inch Full HD anti-glare Horizon display. The Core i7 version features NVIDIA GeForce MX350 graphics chip and both versions are carrying storage of 512GB.

The Mi Notebook 14 Horizon sits properly and nicely on your study table due to its awesome designed sitting ridges at the bottom. Another better design element is the little space the device has on the middle, just where the upper lid touches when you close it and just below the touchpad. This little space is suitable for you to reach the lid of opening easily and you are going to open your notebook without any struggles or hassles for sure.

The Mi Notebook 14 Horizon is a compact machine. The design is eye-catching and very good looking. It is very lightweight and weighs is around only 1.35 kg. It has a length of 321.3mm, a thickness of 17.15mm, and a width of 206.8 mm. One of the perfect things you are going to notice about this great laptop is its smooth use of screen real estate.

Also, this notebook has a 91 percent screen-to-body ratio with less bezel. It has a metallic body which gives the perfect looks. The notebook comes with a full HD (1920 * 1080) resolution with an impressive 178 wide-viewing angle.

You should note that the network supports only a 60Hz refresh rate, which means this does not help play heavy-duty gaming or high graphics jobs. But you would be able to play games without any noticeable glitches for sure. This Mi notebook comes with a convenient USB Plug and Play 720p HD Webcam which would help in working from home easier for you. Due to its lightweight, it is easy to detach and carry in your bag, or leave at home, when not needed. You can even move the camera around to show your study place or work or introduce your family to your friends or colleagues.

Honor Magicbook 14

Honor Magicbook 14 is a Windows 10 laptop with a 14.00-inch display that has a resolution of 1920*1080 pixels. It comes with 8GB of RAM and powered by a Ryzen 5 Processor. It also packs 256GB of SSD storage. This laptop comes with 3 USB ports, HDMI port, Mic Combo Jack ports, and Headphones. A notebook needs to be light, thin, and durable enough to be genuinely portable.

The weight is just 1.38kg and also 15.9mm thick which is giving you both unparalleled and ultra-portability performance on the go. It also comes with an ultra-fast PCIe NVMe SSD storage drive which is five times faster than a standard SATA SSD drive. You can easily fire up your laptop and start working with several apps instantly without any issues at all.

If you are looking for longer and impressive battery life in a notebook, then you should consider Honor Magicbook 14 without any second thought. It is powered by a massive 56 WH high energy density battery which can give you up to 10 hours of standalone productivity without stopping.

You also would get the best security you are looking for while using this laptop for sure. If you are tired of typing in login password, then you should use the built-in fingerprint scanner on the power button, you can easily unlock your MagicBook with just a single tap.

It has a sleek design and lightweight 14 Inch metal body that offers better portability and an anti-glare display to filter blue light effectively. This notebook is powered by the 12 nm process AMD Ryzen 5 3500U processor. It easily combines high power efficiency and high performance together which is ideal for multitasking.

The 8 GB DDR4 dual channels RAM can enhance system response speed significantly and the 256 GB PCIe NVMe SSD provides faster writing and reading capacities. With the help of HONOR Magic-link 2.0, you would be able to share your videos photos to your PC nearby, with transfer speeds of up to 30 MB.

Magic-link 2.0 also lets you share your files and smartphone screen on MagicBook 14, allowing you to edit them with the same mouse and keyboard. You can pick up exactly where you left off without having to jump between devices.

It is mainly designed to include a fan with a copper exterior and complemented with a hidden air outlet. It allows heat to dissipate much faster and brings cooler air easily, avoiding your notebook from overheating and damaging completely your user experience.

It is a smart assistant that comes pre-installed with Microsoft Windows 10, 4K video playback, and office 365 personal for your enjoyment. You would get all the features to become a better working and entertainment partner for sure.

Conclusion

Finally, you are aware of the major differences between Mi Notebook 14 Horizon and Honor Magicbook 14. Both these notebooks offer great features and vital benefits to the users. They are not expensive enough like most of the other notebooks available in the market for the users worldwide.
