In brief

The F&D E200 is a 3W portable soundbar designed for laptops, desktops, TVs, and mobile phones. It delivers solid build quality, rich bass, and clear audio in a lightweight, travel-friendly design under one kilogram.

Are you looking for portable speakers for your laptop or desktop at an affordable price right now? If yes is your answer, then you should go for only F&D E200 3 W Portable Laptop / Desktop Speaker without any second thought. I have personally used F&D E200 Soundbar and it is really stylish and portable for the users. You would be amazed by its build quality, looks and great performance for sure. Here I am going to give you a real review of this perfect portable speaker so that you would not face any issues while buying at all.

The build quality of the F&D E200 speaker is strong and portable enough to carry anywhere. It is less than a kilo and has the best looks and attractive designs. The portable speaker construction quality is amazing and feels better at all sides. The audio quality is also better and you are going to love your favorite music even more. You can also place it on your TV table to clearly hear what is going on on the TV News channel. It has multi-functional panel keys that allow you to change volume, play/pause button.

Here are some of its great features you should be aware of

- Very affordable and not expensive for the users
- Great build quality
- Great sound quality
- Lightweight and very portable
- Rich bass and suitably loud

The E200 is powerful and very user-friendly. As a user, you are not going to face any issues while handling at all. It produces high sounds at an output level of 3 watts, so your tunes will be more audible without any issues. You can easily power with the 5V external adapter or with a USB cable. To increase or decrease the volume, you can turn on the volume knob on the soundbar.

There is also a headphone jack for the users to listen to hardcore metal music without disturbing other people that surround you. I have noticed no Bluetooth connectivity and FM in this F&D soundbar for the users. If you are looking for a portable speaker with Bluetooth connectivity, then you can try other higher models. You can use this E200 portable speaker with your PC, laptop, mobile phone, TV, mp3 player, audio player or anything having a headphone jack. The setting up process with any other device is short and simple for the users.

Conclusion

I have used F&D E200 3 W Portable Laptop / Desktop Speaker and really amazed by seeing its great performance and strong build quality. Also, it is very easy to pack in and you would not face any issues while going for any vacation or trip with your family members. It has an ergonomic design so that you can easily put it into your bag while traveling without any hassle. If you are looking for an affordable portable soundbar with all the perfect features, then you must buy F &D E200 portable speaker only.

So, what are you waiting for? Go for it right now itself!
