In brief

WhatsApp is one of the most genuine and trustworthy instant messaging apps available in the market for users worldwide. It has gained massive popularity among youths and also among all age groups.

WhatsApp is one of the most genuine and trustworthy instant messaging apps available in the market for users worldwide. It has gained massive popularity among youths and also among all age groups. The users use this messaging app to chat with their friends, share photos and videos, share live locations, voice calling, and video call with others.

It is known for giving users several unique and cool features so they can enjoy using this app without any issues. For example, as a user of this app, you would be able to put your status, and it can be any video or image you would like to post. You can also check out your friend's statuses, and they can see yours on WhatsApp.

If you are also using WhatsApp on your iPhone and Android device, then you would be glad to know that you can save the WhatsApp status of your friends and relatives on your device. However, to save the status of WhatsApp, you need to take the help of an app that can help you get all the statuses you want. There are plenty of apps available online that you can use to save WhatsApp status on iPhone and Android.

With many options available in the market, it becomes difficult to choose a reliable and genuine app. Furthermore, some apps are paid, and others are not perfect regarding data protection. Therefore, you need to be more cautious while choosing an app; otherwise, you will end up facing a lot of issues for sure.

Are you looking for a simple and fast app to save any WhatsApp you want? If yes is your answer, then you should take the help of the Status Saver app without any second thought. Earlier it was not possible to save your friends' status, but now you can do this by taking the help of an app named "Status Saver." This app is available for both iPhone and Android users, and you can download it on your device without any hassle. Here you will learn more about the Status Saver app and how you can get it for your device.

What is Status Saver?

a Status Saver is a simple app where users download photo images, GIFs, and videos of any WhatsApp status. If you would like to save the WhatsApp status of your friends or family members, then it is the right app to try. The app is simple to use, and you will not face any issues while using it for sure.

The user interface is pretty simple, and there is no need to be tech-savvy to use this app. Status Saver is best for smooth navigations, reposting statuses, and quick savings. You will not face any issues while using this app, even if you use it for the first time. Everything is understandable, and you would love to use this app and its great features.

This app will never share your personal information with others, and you do not have to bother about your data anymore. Furthermore, it would be better for you to understand that this app is free, and you do not have to pay even a single penny to use it. All the features are available to everyone free of charge, and it is a perfect app to save your friend's WhatsApp status on your device.

Steps in saving WhatsApp status video (Android users)

- First, you need to go through the uploaded images and videos on your WhatsApp status
- After checking out the uploaded images and videos, you need to open Status Saver and click on images and videos to view
- At last, you need to click the save button, and the status will be saved for you.

Also, you would be able to hold on to status so that multi-selection will be enabled, and you can Save from the menu by choosing the save option. It will save media to your gallery; you can share it with your friends and even put it as your status.

If you are an iPhone user, you can also download the Status Saver app on your App store. It is available to everyone and would probably take a few seconds to download on your device. Moreover, it is easy to connect, and there is no requirement to use two iPhones to use its Scan Web QR code feature for linking purposes.

You could check the status in an invisible mode without knowing others. Your friends will never be able to see if you have checked their status. You do not have to worry about it anymore, as everything will be in incognito mode.

Steps in saving WhatsApp status video (iPhone users)

It is straightforward to save WhatsApp status videos for any iPhone user. You can get any status video for free and do not have to pay anything. You just need to scan the WhatsApp Web QR Code with the Status Saver App to connect the account. After connecting it, the app auto-download the videos and images on the status. So it is easier to connect to and faster than an Android device.

While using Status Saver on your iPhone, you can share all the download videos and images with your friends and relatives. It also features a great photo editor where you can edit all your images and videos as per your overall requirements for free. You should know that the editor features will give you great live previews, effects, stickers, text designs, and many more to create unique and best status. The app is safe to use and does not share data with anyone.

Finally, you know the steps to save WhatsApp Status on your iPhone and Android devices. All the above-mentioned useful steps are helpful, and you will be able to save any status you want without any trouble for sure. Ensure you follow every step carefully before proceeding further to the next step.

Status Saver app is perfect for WhatsApp users, and it has gained more popularity due to its various best features. If you haven't tried this app yet, it is the right time to download it on your phone. Do not forget to share your experience with us by giving comments below. Just go for it now!

You can download the Status Saver app for your Android and iPhone. Download From Google Playstore for your Android device and from the App Store for your iPhone.
