Quick answer

While using iPhone or even Android, you might have some purchases or subscriptions to some apps and services. So, it might be necessary to find the purchase or the payment history in both cases, whether it is from Play Store on an Android or the App store on iPhone.

While using iPhone or even Android, you might have some purchases or subscriptions to some apps and services. So, it might be necessary to find the purchase or the payment history in both cases, whether it is from Play Store on an Android or the App store on iPhone.

Find Purchase History on iPhone

In this article, we will check how to find the purchase history on iPhone, thus knowing the apps and services purchased through the App store. The purchase history consists of all the paid details, including the monthly and yearly subscription and the one-time purchase history details.

Step to Find the Purchase History of App Store on iPhone

To find all the purchase history from the App store on your iPhone, follow the below steps.

Step 1: Open the App store on your iPhone.

Step 2: Tap on the profile icon at the top right corner of the App Store.

Step 3: You will reach the App store account page. Again, tap on the profile image on your App Store Account Page.

Step 4: Another popup window will appear with other Account details.

Step 5: Scroll down and find the Purchase History option. Tap on that.

Step 6: Now it will start loading all the Purchase History Data, and you will see a loader with the text "Loading Purchase History"

Done; now you will see all the past purchase history data. There you will see all the payment details made via the App store. By default, it will list all the purchase history of the last 90 days. The default period can be changed by tapping on it, and you can change it by each year too.

Conclusion

The above step helps to find all the details of the past payments done via the App Store related to all the subscription and one-time purchase payments. The above steps are the same for both iPhones and iPad. So if you are using both iPhone and iPad with the same apple id, then you can find all the purchase history on both iPhone and iPad.
