In brief

Extract the last parameter of a string which is separated by a slash using the following line of codes.

Extract the last parameter of a string which is separated by a slash using the following line of codes

```
var str = 'http://example.com/new/samplefiles/file.png';  
var n = str.lastIndexOf('/');  
var lastParameter = str.substring(n + 1);
```

here 'lastParameter' will have the value 'file.png'
