In brief

Of late, many people prefer watching the online video streaming content on their mobile phones but they are not able to watch the streaming services of other regions.

Of late, many people prefer watching the online video streaming content on their mobile phones but they are not able to watch the streaming services of other regions. If you want to watch Amazon Prime, American Netflix, HBO Now, and various other sites that are not available in your region, then you should take the help of KeepSolid SmartDNS right now. It is one of the reliable and trustworthy services with very fast and genuine speeds. You would be able to enjoy your favorite shows in 4K Ultra HD without any delays for sure.

With the help of SmartDNS, you can easily check out your favorite websites and enjoy any online show you want from any place in the world. You do not have to worry about your current place or where you live at a particular moment. It will be easy to unblock video services like Amazon Prime, Netflix, Hulu, and BBC iPlayer without any issues at all. Users can watch videos or TV shows on any internet-capable device. The application works smoothly on all the platform and devices with an internet connection. You can use the app on your laptop, media player, router, and smartphone.

Let's go through some of its features you should be aware of right now

- Smart TV support
- No traffic limits or bandwidth
- Easy access to the top steaming services
- Fast and smooth performance
- Incredible User Interface
- 24/7 Client support
- Unlimited number of devices
- Free 7 days trial
- Use without Installation
- Unlimited high-speed connection
- 1 account on unlimited devices

The SmartDNS service will help users all around the world to unblock the famous video streaming sites available in the market. With the help of the freedomizer tool, you would have access to EU and US DNS servers so that you can access services like Hulu, Ameican Netflix, Prime, and many more on the list. It is also possible to use a single SmartDNS account on unlimited devices. There is a 7 days trial period with a money-back guarantee. If you are using it for the first time, then you should try a trial period first before going for the premium versions. It has monthly (\$3.99) and yearly plans (\$19.99) for the users. If you want any support or have any issues regarding any services, then you can contact customer support which will be available 24/7.

Conclusion

It is simple to use DNS Proxy App which lets you watch TV shows without delays, Lags, Platform limit, and Geo-Restriction. The user interface is clean and simple to understand for the users worldwide. It is faster than any VPN application so that you can enjoy movies and TV shows without any lags and at a better quality. Users will be able to unblock restricted content without slowing their internet connection. If your main concern is privacy, then you should go for the KeepSolid SmartDNS for sure. Just go for a trial period first before proceeding further right now!
