In brief

One UI 3.0 with Android 11 Update is now available for Samsung Galaxy M21 devices. Galaxy M21 was one of the best and budget devices from Samsung.

One UI 3.0 with Android 11 Update is now available for Samsung Galaxy M21 devices. Galaxy M21 was one of the best and budget devices from Samsung. The M-Series device launched last year along with M31 and was priced below 15k.

The Galaxy M21 was initially shipped with Android 10 with Samsung's One UI 2.0, then got updated to One UI 2.5. Now the latest One UI 3.0 based on Android 11 was rolled out officially for all the devices.

The One UI 3.0 comes with a lot of improvements and enhancements. We can see several UI changes with the latest updates. Much smoother animations and faster performance is the key advantage with the latest One UI 3.0

The new update got rolled out officially, and users around the globe started receiving the notification. If you were using Galaxy M21 and didn't receive the update notification, go to the settings and check for the update manually.

Settings > Software Update > Download and Install

Here, you can manually check for the update. if available, go ahead with the download and update the M21 running on Android 10 to the latest Android 11 with One UI 3.0

The update size is 1.7 GB.

The security Patch level is 1st January 2021.

Build Number: RP1A.200720.012.M215FXXU2BUAC

We will start using the latest One UI 3.0 based on Android 11 on the Galaxy M21 in the coming days and provide a detailed review within few days.
