Bottom line

Xiaomi Redmi has released its latest phone Redmi Note 9 Pro with all the latest features and specifications to the users. It is considered to be one of the budget-friendly phones available in the market.

Xiaomi Redmi has released its latest phone Redmi Note 9 Pro with all the latest features and specifications to the users. It is considered to be one of the budget-friendly phones available in the market. It comes with a premium look, large battery life, and quad rear cameras. This phone is the successor to the previous "Redmi Note 8 Pro" which is still a perfect value for your hard-earned money. Let's compare both these two phones (Redmi Note 8 Pro vs Redmi Note 9 Pro) right now.

Price

The Redmi Note 8 Pro comes only in three variants, 6GB+64GB (Rs 14,999), 6GB+128GB (15,999) and last 8GB+128GB (17,999). It is not an expensive phone and variants are available in Halo White, Shadow Black, Gamma Green, and Electric blue colors. It gives a premium look to the phone and available online.

The Redmi Note 9 Pro comes only in two variants, 4GB+64GB (Rs 12,999) and 6GB+128GB (15,999). It is also not an expensive phone and variants are available in Glacier White, Aurora Blue, and Interstellar Black. This phone is available online on Mi.com, Amazon, and Mi Studio Stores.

Specifications

The dual SIM Redmi Note 8 Pro mobile runs Android 9 Pie with MIUI 10 but now has been updated to Android 10 and MIUI 11. The Redmi Note 9 Pro runs Android 10 with MIUI 11 and currently no latest updates available for this phone.

The Redmi Note 9 comes with a bigger screen of 6.67 inches full HD (1,080*2,400) + IPS display with a 20:9 aspect ratio. The Redmi Note 8 Pro comes with a 6.53 inch full HD screen with a resolution of 1080*2,340. It includes 19:5:9 aspect ratio and both these phones are fully protected by Corning Gorilla Glass 5.

Coming to the memory and processor, the Redmi Note 8 Pro powered by a MediaTek Helio G90T SoC processor and comes with up to 6GB RAM. The Redmi Note 9 Pro powered by an Octa-Core Qualcomm Snapdragon 720G SoC processor and come with up to 4GB RAM.

Both these phones include rear cameras but their configuration is not the same. The Redmi Note 9 Pro includes 48-megapixel (f/1.79) + 8-megapixel + 5-megapixel + 2-megapixel. On other hand, Redmi 8 Pro includes 64-megapixel (f/1.79) + 8-megapixel (f/2.2) + 2-megapixel + 2-megapixel. There is also a 20-megapixel camera on the front notch for taking video calls and selfies.

Coming to the storage capacity of these phones, both these budget-friendly phones have internal storage of 64GB. It can be expandable up to 512 GB via a microSD card. The Redmi Note 9 Pro comes with Bluetooth v5.0, 4G VoLTE, Wi-Fi, USB-C, and also a 3.5mm headphone jack. The Redmi Note 8 Pro comes with Bluetooth v.5.0, GPS/A-GPS, USB-C, and also a 3.5mm headphone jack.

The battery capacity of Note 8 Pro is 4500mAh and Note 9 Pro includes 5020mAh. Both phones support fast charging and very lightweight phones.

Conclusion

Finally, you are aware of the specifications of both these budget-friendly phones. I would suggest you go for Redmi Note 9 Pro due to its bigger screen and better battery power. Go for it right now!
