In brief

Android will show the name of that App in the title area, it can be removed by adding the line of code in the AndroidManifest.xml file in your app,.

Android will show the name of that App in the title area, it can be removed by adding the line of code in the AndroidManifest.xml file in your app,

```
android:theme="@android:style/Theme.NoTitleBar"
```

Place the code inside the application tag

The xml will look like this

Now there will be no app name in the title area.
