### In brief

We can remove default wordpress jQuery from the frontend so that to avoid conflict with the jQuery in the theme. In order to remove the default jQuery add the following code in the function.php file in the theme folder.

We can remove default wordpress jQuery from the frontend so that to avoid conflict with the jQuery in the theme. In order to remove the default jQuery add the following code in the function.php file in the theme folder.

```
add_action('wp_enqueue_scripts', 'no_more_jquery');  
function no_more_jquery(){  
    wp_deregister_script('jquery');  
}
```
