In brief

Video Downloader is an application available for android, which can be used to download videos from facebook directly. It can be downloaded from Google Play Store.

Description

Video Downloader is an application available for android, which can be used to download videos from facebook directly. It can be downloaded from Google Play Store.

- Watch the videos you're tagged in, your uploaded videos, friends' videos
- Choose which video you want to download, or download all of them with a single click
- The only app for Android that can play and download HQ version videos!

*** WARNING: If you have an old Android version, you might not be able to view videos directly. You can still download them and use a third-party player such as "MX Player" to open them *** Some videos you can see from Facebook website cannot be accessed by external applications, thanks to Facebook bugs; I can't do anything about it.

If you have interrupted downloads try keeping the application alive while downloading!

About App

- Version : 0.3
- Size : 1.1M
- Requires : 2.3 or greater
- Category : Social
- Price : Free

Instructions

- On first launch, click the "login" button and authorize the application when requested
- Explore your videos directly from main menu, or friends' videos by clicking "Friends"
- Use checkboxes to choose which videos you want to download, or click one of them to watch it
- Click the upper download button. When finished, you can view your videos by accessing the Android gallery, or by opening with a file explorer the "sdcard/Movies/Facebook" folder
