What happened

Vine started HD video upload option in their application. Vine is a short video sharing application which is available on Android as well as in IOS.

Vine started HD video upload option in their application. Vine is a short video sharing application which is available on Android as well as in IOS. Vine usually uses 6-12 seconds videos for upload and earlier 480p videos can be uploaded, Now they introduce 1080p video record and upload option. The new feature will be available for IOS users now and will be roll out to android users soon.
