In brief

Remember few important points before selling your old iPhone to third party. You should need a perfect backup to shift all important files, photos, videos and classic graphic pictures to computer.

Remember few important points before selling your old iPhone to third party. You should need a perfect backup to shift all important files, photos, videos and classic graphic pictures to computer. Definitely, you must not hand over your bank details and ID proof information to the buyer. Learn how to format the iPhone deleting content from the device prior to sale.

Backup all the important data for iPhone Before Selling

Before erasing junk documents and photos, try to Connect your iPhone to your laptop/computer/Mac for having the immediate backup, you must move all the important or useful data on other device ,so they can be imported into new iPhone in the future, then next :

Step 1> Have Technical Backup to Relocate All Data

Step 2 > Proceed to deactivate iMessage

Settings app > Messages > iMessage > switch off

Step 3 > Turn off Face Time

Settings app > FaceTime > switch to off

Step 4 > Deactivation of iCloud Account

Settings app > iCloud > Sign Out

Step 5 > Do Logging Out of Apple ID

Settings app > App /iTunes Stores > tap Apple ID and sign out

Step 6> Unregister Your iPhone

Complete iPhone un-registration visiting [supportprofile.apple.com](https://support.apple.com) and the service provider will certainly discontinue activating your account.

Disable Find My iPhone

Your customer will not accept the iPhone if it is not fully cleaned without any apps/data in storage. Obviously, iPhone must look like a new one. Therefore, be careful at the time of content erasing from the device. Turn off Find My iPhone section. It must be disabled. It should not be supported by Apple ID to open your account. Check following formalities below

- Settings App
- Open your personal account settings
- Select iCloud
- Go to Find My iPhone setting
- Toggle for deactivating Find My iPhone mode

Tip

Use your Apple ID code for security purpose. In future, none will be capable of having access to your personal profile
